

How Much Does Your Freephone Number Actually Cost?

ChorusCX Is Lowering Costs for Charitable Organizations & Enhancing Call Service

ChorusCX understands that charities need to be accessible at low or zero cost to callers, and whilst 03 numbers are often included in callers' bundled minutes, many "in need" callers won't have this luxury. Freephone or 080 numbers are genuinely free to the caller and also don't show on itemised phone bills. Making them the ideal number for most charities.

However, since the costs of these calls are covered by the recipient and more and more calls are being made from mobile devices, it's very likely that a charity's bill to receive calls is increasing year on year.

ChorusCX are confident that we can reduce your freephone number costs and enhance your caller and call handler's experience...We also have zero cost solutions for charities using 0300 numbers, still benefiting from our extensive call handling enhancements.

Benefits to Charities

Ability to Use 0300 Numbers

Cost Affordable for Charities

Reliable Call Solutions

100% Service Uptime

Simplify Complex Call Routing

Robust Data Analytics and Reporting

Features of ChorusCX

- › **Call Queuing** – Reduce on site call queuing capacity to zero by holding excess calls "in the cloud".
- › **Caller Exception** – Prioritise the most urgent calls or block unwanted nuisance calls (even from withheld numbers/callers).
- › **Remote Worker Hunt Groups** – Efficiently manages on call or volunteer hunt groups, allowing Agents to control when they receive calls.
- › **Call Shield** – Intelligently protects from unwanted calls from suspicious or fraudulent callers.
- › **Reporting** – Live wallboard and historical details of all calls received, reports can be scheduled to be received outside of the portal.
- › **Date & Time Rules** – Preemptively change how calls are dealt with based on weekly or one off schedules.
- › **Number Manager** – All inbound numbers come with the Enterprise grade Number Manager platform.
- › **Freephone Numbers** – Offer the lowest cost to the caller at zero, while the call costs are covered by the end user.
