

# Number Manager

## Take Full Control of Your Numbers

Number Manager is the market-leading portal for call management – an intuitive and easy-to-use platform that puts advanced call routing technology just a few steps away in an extremely cost effective way.

**Simple Solutions to Complex Requirements:** Easily customize it to suit your exact requirements, and access an extensive range of constantly growing features.

**Full Reporting:** Whatever you need to know, our touch-of-a-button call reports can provide instant and valuable information about the calls you receive.

**Robust & Reliable:** Using the latest web technologies, Number Manager is fully monitored and maintained in-house to ensure continuous development.

**Easy to Use:** Create complex call routes with our 'drag and drop' tool, giving you all the functionality of Number Manager through a simple, visual interface.

**Manage How Your Calls Are Handled**

**Real-Time Reporting**

**Change Routing With the Click of a Button**

**Make Immediate Changes Whenever You Need**

**“The best thing about Number Manager is that it is so simple to use. Anyone in an organization could manage numbers with little to no training.”**
